

MELAKU AZENE

FULL STACK DEVELOPER

ABOUT ME

Full-Stack Developer with solid experience in both front-end and back-end development. Skilled in building responsive MERN stack applications, RESTful APIs, and integrating modern tools and services. I write clean, scalable code and deliver end-to-end solutions with strong problem-solving and system design skills.

EXPERIENCE

FULL STACK DEVELOPER

PixelAddis Software Company JAN 2025 - JUNE 2025

- Hired as a Full Stack Developer, working on backend development with Node.js, TypeScript, TypeORM, and MySQL, and frontend development with React and TypeScript. Contributed to API design, database management, scalable backend logic, and responsive UI development. Utilized Docker and implemented CI/CD pipelines for automated deployment.

Front-end developer Intern

Efuye Gella Software Company

July 2024 - Octo 2024

- Contributed to the development of modern web interfaces using React.js ,Redux ,and Tailwind CSS. Gained practical experience in responsive design, component-based architecture, and real-world software development workflows.

Full Stack Developer Intern

Minab Tech Software Comapny

Janu 2023-June 2023

- Developing full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and GraphQL. Responsible for both front-end interfaces and backend logic, API integration, and end-to-end feature delivery.
